Subpart B—New Treasury Direct System

§ 363.15 What is a New Treasury Direct account?

A New Treasury Direct account is an online account maintained by us solely in your name in which you may hold and conduct transactions in eligible book-entry Treasury securities.

(a) *Primary Account.* Your primary account that you establish when initially opening your New Treasury Direct account may contain the following Treasury securities:

(1) Treasury securities that are your personal holdings, in sole owner, owner with beneficiary, and primary owner with secondary owner forms of registration; and

(2) gifts that have not yet been delivered.

(b) *Linked account.* A linked account is an account that is a separate account from your primary account, but that is connected to your primary account. You use your primary account as a portal to open and access the

linked account. Linked accounts include the following:

(1) *Custom account.* A custom account is an account that is linked to your primary account. You use your primary account as the portal to open and access your custom account. You may informally designate a purpose for the custom account, for example, "vacation fund", or "Johnny's college fund". However, the designation as to purpose has no legal effect; the registration of the securities held in the custom account determines ownership (Annual purchase limitations include securities held in custom accounts). You may use your custom account to buy, redeem and transfer securities that you own in sole owner, owner with beneficiary, and primary owner with secondary owner forms of registration. You may also buy and deliver gift securities from your custom account.

(2) *Minor account.* A minor account is an account established by a custodian for a person who has not yet reached the age of 18 years. A minor account is linked to the custodian's primary account. The minor is the owner of the securities, but the custodian controls the account on behalf of the minor. (See § 363.27 for more information about minor accounts.)
